P R O F I L E

I am a graduate with a degree in Computer Engineering and a deep interest in web development. I have a solid understanding of HTML, CSS, JavaScript, and is proficient in React.js and Next.js. I am a full stack developer who has experience working with back-end technologies such as Node.js, Express.js and Firebase, as well as database management using MongoDB. I have experience working on various personal projects. I am a creative problem-solver who pays attention to details. I am also a team player who is always looking for ways to improve and learn new skills. I am eager to apply his knowledge and skills to real-world projects and make an impact in the web development industry.
